Professional Summary

Experienced Software Engineer with over 5+ years of mastery across a diverse technology stack, spanning .NET, .NET Core, C#, ASP.NET, SQL, React, Angular, DevOps methodologies, Web API development, Restful API design, stored procedures, and Entity Framework. Committed to continuous personal and professional growth through collegiate courses and online boot camps. Valued for reliability and accountability, fostering trust and collaboration within teams.

Skills

Frontend: React, Angular, HTML, CSS, JavaScript
Backend: C#, .Net Core, ASP.NET, .NET Framework, Entity Framework, MS SQL, Stored Procedure.
Others   : DevOps methodologies, Web API, Restful API, Agile Methodology, Postman, GIT, JIRA.

Work History

Software Engineer   04/2022 – Current

HCL Technologies — Bangalore, India
Project: IKEA-INTER-MOSP-UI-MOD-RFB-FY24
    C#, .NET Core, SQL, React, Devops

- Collaborated with development and testing teams to craft robust solutions meeting client needs for functionality, scalability, and performance.
- Efficiently managed time to consistently meet project deadlines, prioritizing tasks effectively.
- Analyzed customer requirements to propose technical solutions aligned with their needs.
- Modernized outdated technology bases, enhancing functionality and improving development standards.
- Worked closely with clients to ascertain solution requirements.
- We are using .NET, .NET Core, C#, ASP.NET, SQL, React, Angular, DevOps methodologies, Web API development, Restful API design, stored procedures, and Entity Framework.
- Deployed a software update, slashing system errors by 50% and boosting application performance by the same margin.

Full Stack Developer Trainee Engineer   02/2021 – 06/2021

Palle Technology — Bangalore, India
Project: APARTMENT MANAGEMENT SYSTEM
    C#, .NET, SQL, Angular

- Grasping the foundational principles of .NET and Angular development frameworks.
- Supporting senior developers in crafting and refining web applications utilizing .NET and Angular.
- Playing a pivotal role in testing and debugging to ensure application reliability and functionality.
- We utilize C#, .NET, Angular, and SQL in our technology stack.

Electrical Engineer   09/2018 - 12/2020
Trinity Technologies — Bangalore, India

- PLC programming for Automation Industries.
- Inspected completed installations to observe operations and verify conformance to design and equipment specifications.
- Successfully managed multiple projects simultaneously by setting clear goals, prioritizing tasks, and monitoring progress.
- Reduced electrical construction hazards with upgraded safety policies and stringent enforcement.
- Calibrated and repaired existing systems to maintain functionality.

Education

BACHELOR OF ENGINEERING IN ELECTRICAL AND ELECTRONIC   04/2017
Karpagam College of Engineering Coimbatore, Affiliated To (Anna University)   GPA: 6.5

DIPLOMA IN ELECTRICAL AND ELECTRONIC ENGINEERING   04/2014
SREE KUMARAGURU PLOYTECHNIC COLLEGE   Percentage: 80.71%

SSLC   04/2011
E.R.K Higher Secondary School   Percentage: 59%

Personal Information

Date of Birth : 02/11/1995

Passport No : P3371679

Address : 4/367, Pachinampatti, H.Doddampatti(PO),
              Harur (TK), Dharmapuri (DT), Tamilnadu-636903.
